Claim 14 has the following informalities:

Claim 14 lines 1 " A preparing method a sample " is awkward and could be clarified if replaced by —A method of preparing a sample--.

Appropriate correction is urged.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 14-29 and 37-41 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Oberhardt et al.(USP 4,097,237) or Trivedi (USP 4,683,223).

Oberhardt et al.(USP 4,097,237) teach in column 1 lines 13+ that it is known to add a known volume of dye to an unknown volume of blood.

Trivedi (USP 4,683,223) teach in column 13 lines 19+ addition of 2ml of a phenol red solution to an unknown volume of exudates and a method for determination of the volume of the unknown exudates.

Conclusion

Applicant's election without traverse of claims 14-29 and 37-41 in Paper No. 7 is acknowledged.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Both Bickar references teach adding a know volume of an unknown sample to the same known volume of dye.
